

Dear Valued Customer,

We are pleased to announce that Brook Crompton Australia Pty Ltd have reached an agreement with Torque Techniques New Zealand as our official partner.

The agreement will allow Torque Techniques to access and support the extensive family of brands under the Wolong Electric Group of Companies, such as Lawrence Scott, ATB Morley, ATB Sever, GE Industrial Motors but not limited to.

The Brook Crompton name has long been recognized as representing innovation and quality in the design of Electric Motors with almost 120 years of experience in the manufacturing and distribution of the products that drive global industry which is underpinned by the Wolong Electric Group.

The main driver behind this strategic appointment by Brook Crompton Australia, was based on Torque Technique's unique market position and customer base in the OEM segment of which Brook Crompton Globally has extensive experience in.

Torque Techniques will have the full support from the Australian Brook Crompton team who are demonstrating their full commitment into Australia and New Zealand markets with large stock investments across all platforms.

When dealing with TorqueTechniques you are essentially dealing with Brook Crompton Australia PTY Ltd for both commercial support and technical back up of BC and Wolong product offerings.

We look forward to supporting the TorqueTechniques team and their customer base.

With Kind Regards

Sean Sill

Director Brook Crompton Australia Pty Ltd
